technical rider Yellow

collective Mime Wave

build up time	1 hour 45 minutes
collective	3 people
transport	van, 4.8m long, 2m high, 1.95m wide

technicians needed from theater	1
duration of show	40 min
ballet floor	yes
minimus size playing field	6m wide, 5m deep, 3m high
height of scenery	2.45m

SOUND

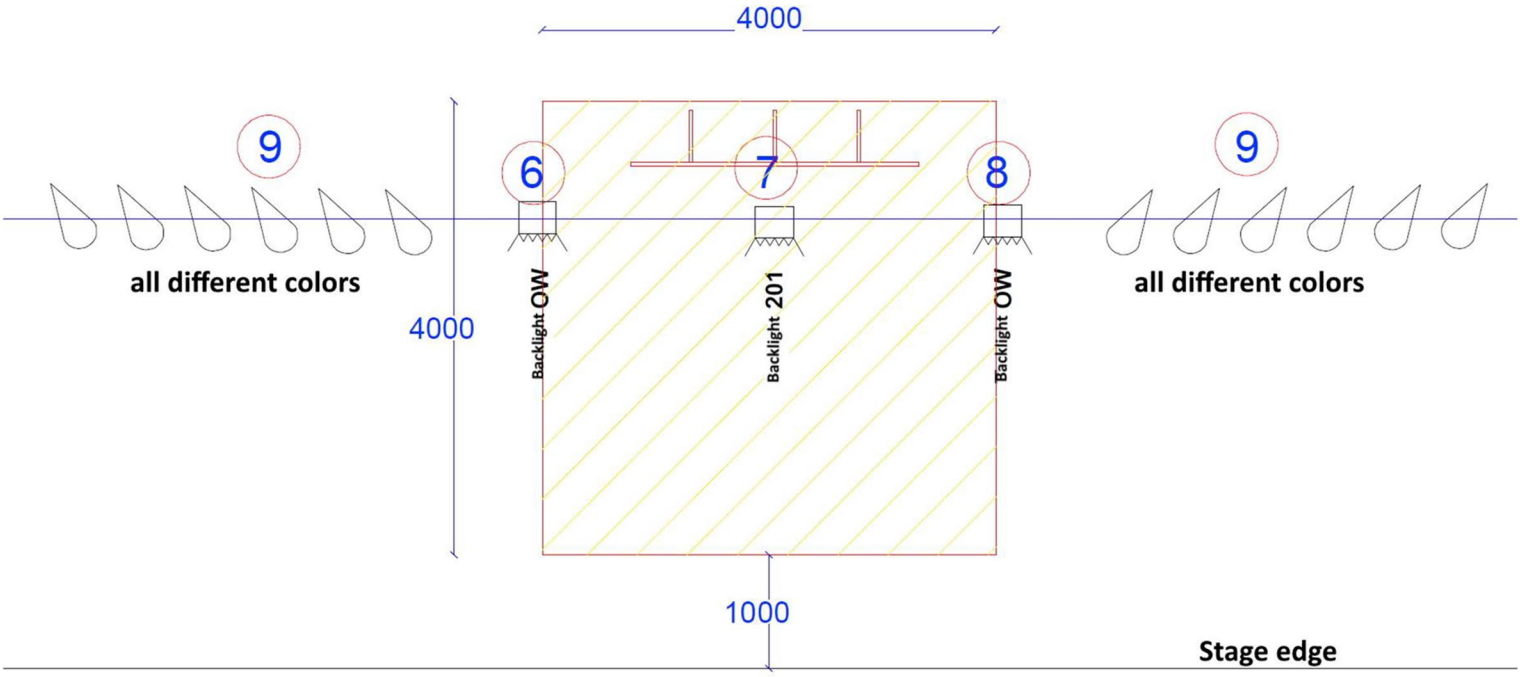

- we use our one guitar amp that doesn't need to be miced
- all other sound is acoustic

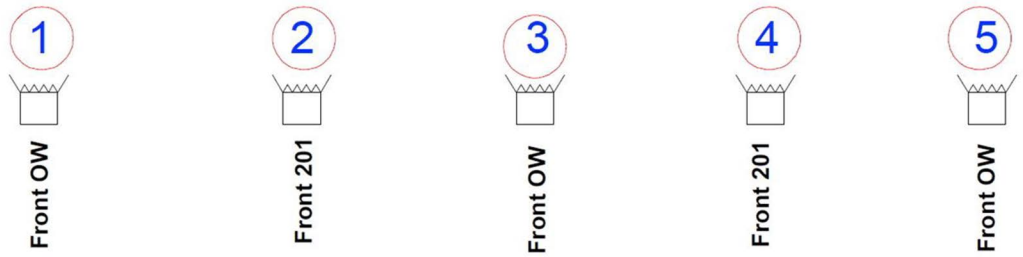

LIGHT

- all light should be evenly spread on the complete yellow floor **and** yellow wall
- the top-back light should not hang behind the wall, because it will cause a hard shadow.
therefore, it hangs just in front of the wall, see light plan on the next page for more information

* The actors will build the set themselves. Support with unloading is welcome.
* The technician from the theater runs the light during the show. With explanation it is simple to do.

front	#1	(cross) Front OW	warm	completely set on 4x4 floor
	#2	Front 201	cold	completely set on 4x4 floor
	#3	Front OW	warm	completely set on 4x4 floor
	#4	Front 201	cold	completely set on 4x4 floor
	#5	(cross) Front OW	warm	completely set on 4x4 floor
top	#6	Top/back OW	warm	completely set on 4x4 floor
	#7	Top 201	cold	completely set on 4x4 floor
